

Remote Switch Panel

The AQUAVISION remote switch panel is exactly what it says, a small switch panel that gives you instant control of your AQUAVISION without having to find the remote control. Ideal for hotels and guesthouses or indeed anyone who does not want any remote controls lying around.

Back Box

If you want to install AQUAVISION in a very dusty environment, or in a wall that is knowingly damp, we recommend that you purchase one of these galvanised back boxes. These work well with pre-cast concrete walls as this box can be cast directly into the wall.
